CAMP SMART

LITE SERIES.

Teardrop trailers are designed to be lite – something your current car can actually pull. These trailers are well under the threshold for virtually any car. With weights starting just above 500lbs, the myPod and Deuce are ideal for a sub-compact or even a trike. The myPod, pictured above, boasts a 100% fiberglass molded body which sits on an uber-lite weight aluminum frame. ←←

The interior of the myPod features custom cabinetry designed to accommodate an embedded air conditioner and robust 19" entertainment center. Should you not choose either of those options, storage areas are included.

The 4x7 and 5x7 Deuce is our entry-level teardrop. The base model comes equipped with 1 door, steel wheels and an open interior. The XP package provides a 2nd door, alloy wheels, overhead cabinetry and a pop-up galley.

Featuring a near, queen-sized sleeping area, the 5-Wide Little Guy was designed to be ideal for 2 adults, a couple of kids and/or some pets! The overhead cabinetry has 2, large, upward swinging cabinet doors that frame a mirror (or 19" TV)

The back hatch opens to reveal a convenient galley where you can choose to drop in a sink and stove or you can simply opt to have a large storage or prep area.

LITTLE GUY. Serving as the 'original flagship' for the company, this modern teardrop - with a casual twist - has been our most popular model for several years. It is available in 4' 5' and 6' wide and can be equipped with an off-road package for those hard to reach campsites. <<

Live with
ABANDON

The 10' models come standard with California fiberglass fenders, baby moon wheels, a headboard with additional storage and deeper galley cabinets.

FOOTPRINT

The 5' wide Shadows offer a queen sized sleeping area, while the 6' wide is more representative of a king. Another popular option that is only available in the 10' models of the Shadow family is embedded air conditioning.

SILVER SHADOW.

The Silver Shadow family is inspired by the retro teardrop trailer from the 1940's. Each come equipped with classic silver exterior and real birch wood interior. Every Shadow features 2nd floor storage and full height galley in the rear. While the 8' model can accommodate a sink, the 10' models offer the choice of sink, stove, sink/stove combo, fridge or pull-out cooler. <<

OPTIONAL FEATURES

Bluetooth™ Stereo– This AM/FM Stereo with Bluetooth™ streaming audio, USB (for MP3) and 1/8" aux. input and speakers (interior/exterior) provide premium sound for your camping enjoyment.

Sight and Sound– AM/FM/DVD Stereo with Bluetooth™ streaming audio, 12v, 19" LED TV and speakers provide a great entertainment center for all of your audio and video needs.

Air Conditioning– Enjoy 5000btu of cold air with our custom designed AC system complete with exhaust insulation shroud and intake fans. Available on myPod and 10' Shadows.

Sink & Stove– Brushing your teeth, rinsing off your dishes and cooking your food was never so easy – thanks to a large rectangular sink and 2 burner stovetop!

Sink/Stove Combo– Available in the 10' Shadow, this sink/stove combo is a nice alternative that allows you to save on space and capture more storage – all while doing it in style!

Stargazer Window– Are you looking to bring more light into your trailer or wishing to stare into the night sky? Here's your ticket!

12v Fridge– Keep your food cool in this sleek, black, efficient 1.7 cubic ft upright fridge/freezer!

12v Cooler– Reach on over and down into this 1.6 cubic ft fridge/freezer – complete with slide-out hardwood drawer for easier access!

Window Shades– Who knew owning a teardrop would attract so much attention? Whether it is the sun or a set of eyes, these accordion night shades will keep them from peering in!

Some features above are standard on select models and packages. They may not be available on all units based on design.

ACCESSORIES

Cottonwood Shelter– Escape the rain or enjoy the shade with this lightweight dome that covers your key camping space.

Custom 10x10 Tent– Gain 100 sq. ft. of living space (for your own use or to accommodate guests) with this multi-functional screen room & tent.

Custom 5x7 Tent– A smaller version of the 10x10 but with all the same benefits, specifically speaking, a place for privacy!

Yakima™ Roof Rack– Want to slap on a cargo basket, some skis or a kayak? Here's your answer! Available on all models except for the myPod.

Solar Panel– Chase the sun and keep your trailer powered at all times! *Every trailer that leaves our building is prepped for solar charging.

Cover– Protect your teardrop from UV, Acid Rain, Sap and much more...

Embrace your **FREEDOM**

- Published weights do not include all options. Total, fully equipped, weight is approximately 10% more of dry weight.
- All tongue weights are indicative of weight without battery, spare tire, or full LP tank.
- Actual specs and weights are subject to change without notice
- Heights and widths displayed are at max

Nothing is more beautiful than the loveliness of the woods before sunrise.

GEORGE WASHINGTON CARVER

SUPREME QUALITY & SERVICE

Our main priority at Little Guy Worldwide & Pleasant Valley is to build the highest quality and most practical teardrop trailer on the market. All of the materials and components that we employ are carefully selected with function, aesthetics and quality in mind. We strictly adhere to NFPA and Z240 guidelines and incorporate multiple quality control checkpoints of our own during the build. When each trailer has been completed, it is put through a thorough 88 point inspection process. Just as important as the initial build is how we handle our customers on the post-purchase. Every issue, without exception, is openly accepted and examined to ensure that the owner is 100% satisfied with their trailer. We pride ourselves on listening to you and ensuring that you are truly a happy camper!

THANK YOU We appreciate your interest in the Little Guy teardrop camper. When you purchase a teardrop, you are doing more than simply buying a trailer – you are buying the lifestyle. There are a few things to remember: 1) You will be very popular wherever you go 2) less is more and 3) size does matter. In parting, a teardrop trailer allows you to 'live free,' 'camp smart' and perhaps most importantly, 'be different.'

DEALER BODY

Our dealer body is the lifeblood of our organization. We encourage customers to purchase locally. Each dealership is independently owned and operated – free from any corporate requirements. Purchasing from your local dealer has multiple benefits. First and foremost, it allows a long and meaningful relationship to form. From the time of purchase to servicing your trailer to trading it in for your next one, your dealer will be best suited to take care of you. Whether it is proximity, state regulations or simple 'teardrop tips' your experience will be enhanced with a local connection. If you ever should have the need for upgrades or warranty work, the vast majority of our dealers can take care of that for you as well.
